

PEANUT BUTTER & JELLYFISH

WOW! PB&J Never Looked So Good!

INGREDIENTS:

- 1 Tortilla (any size)
- 1 Tablespoon of Peanut Butter
- 1 Tablespoon of Your Favorite Jelly
- 1 Twizzler Pull & Peel
- 2 Mini Marshmallows
- 2 Raisins

DIRECTIONS:

First, make the eyeballs.

1. Use your palm to press down and flatten the mini marshmallows.
2. Use a tiny bit of peanut butter as glue to attach a raisin to the center of each marshmallow. If you don't have marshmallows, banana slices look good too.

Next, make the tentacles.

3. Pull apart the "Pull & Peel" Twizzler to create tentacles.
4. The tentacles can vary in size.

Then, make the body.

5. Spread one side of the tortilla with peanut butter.
6. Fold the tortilla in half with the peanut butter on the inside.

Finally, put it all together!

7. Place the folded tortilla on a plate and spread a thin line of peanut butter along the folded straight edge.
8. Line up the twizzler tentacles along the straight edge using the peanut butter as glue to hold them in place. Only the part of the twizzler that is held on with peanut butter should be touching the tortilla. The rest of the twizzler should hang off the edge.
9. Turn the tortilla over and spread jelly on the side that is facing up. You can make a smile with a Twizzler if your jellyfish is happy today!
10. Place the eyes on the tortilla. This time use the jelly as glue.
11. Eat and enjoy!
